

Bit-set Torx - Datasheet

Torx Bit Set (50 mm) – for SD & SDV

This Torx bit set can be selected together with any Spin Robotics screwdriver and is compatible with both SD and SDV tools. It includes 50 mm bits in TX8, TX10, TX15, TX20, and TX25. The set supports automatic bit-changing for applications that require multiple Torx sizes in the same process.

Torx Bit-set	
Lenght of bit	50mm
Compatible with SD-Series	Yes
Compatible with SDV-Series	Yes
Manufacturer	Wera
Bit sizes included in set	TX8, TX10, TX15, TX20 & TX25
Dimensions	50x7x7 mm
Weight	8 g

Future of Assembly

Bit-set Hex - Datasheet

Hex Bit Set (50 mm) – for SD & SDV

This Hex bit set can be selected together with any Spin Robotics screwdriver and is compatible with both SD and SDV tools. It includes 50 mm bits in H2, H2,5, H3, H4 & H5. The set supports automatic bit-changing for applications that require multiple Hex sizes in the same process.

Hex Bit-set	
Lenght of bit	50mm
Compatible with SD-Series	Yes
Compatible with SDV-Series	Yes
Manufacturer	Wera
Bit sizes included in set	H2, H2,5, H3, H4 & H5
Dimensions	50x7x7 mm
Weight	8 g

Future of Assembly

Bit-set Phillips (PH) - Datasheet

Phillips Bit Set (50 mm) - for SD & SDV

This Phillips bit set can be selected together with any Spin Robotics screwdriver and is compatible with both SD and SDV tools. It includes 50 mm bits in PH0, PH1 & PH2. The set supports automatic bit-changing for applications that require multiple Phillips sizes in the same process.

Phillips Bit-set	
Lenght of bit	50mm
Compatible with SD-Series	Yes
Compatible with SDV-Series	Yes
Manufacturer	Wera
Bit sizes included in set	PH0, PH1 & PH2
Dimensions	50x7x7 mm
Weight	8 g

Future of Assembly
